

Professional Development Webinar for Teachers

Monday, 30th November 2020 @ 7 p.m.

The Young Economist of the Year (YEOTY) is a national award structure for post-primary students to promote the enjoyment of economics as a leading 21st century discipline. The success of YEOTY has seen it continue to expand every year. Following this, and to facilitate further growth and quality in the projects, a professional development event has been organised once again for teachers. The purpose of this day is to provide guidance and resources to teachers in the areas of economic inequality, research methods and supporting students as they engage in the research process for their entry.

WEBINAR OVERVIEW
